

Fairbridge Training is working in partnership with the Financial Services Authority (FSA) to deliver financial capability training to staff working with young people who are not in education, employment or training (NEET).

Young People And Money is a **FREE** one-day workshop and aims to equip youth workers with the skills to help engage young people on financial matters to improve their financial skills. On the course you will cover topics such as:

- **Understanding of the psychology of young people & money**
- **Ideas on helping young people make the most of their money**
- **Tools to enable young people to make informed choices**
- **Skills to engage young people in financial matters**
- **Help for young people to manage debt**

This is an essential course for anyone working with the NEET group and gives you various ideas and activities that can be incorporated into existing programmes.

Fairbridge Training courses are fun, informal and practical – allowing you to make the most out of the training day. Fairbridge has over 20 year's experience of working with disengaged young people and giving them the skills they need to change their lives. Fairbridge Training can now share this knowledge and understanding with other youth workers. Our trainers can draw upon real-life experiences on working with young people and theoretical applications – creating a unique learning experience.
